October 2017

From the Factory:

Well, it's a new day here at Boss Hoss Cycles. We are under new ownership and working with Monte, the legend, who started the business to begin a new era for V8 motorcycles.

We wanted to let everyone know and not be concerned that we are not attending any events until Daytona Bike Week Spring of 2018. We are currently working on revamping internal systems here at the factory and getting things ready for 2018. This new start includes working on some exciting stuff which will be beneficial for not only us here at the factory, but for our dealers and our valued loyal customers. Improved quality, performance and service are all part of the next chapter for the most reliable V8 production bikes and trikes we've ever built. We look forward to 2018 with a fresh renewed start and commitment.

If there are any questions or concerns please feel free to call or email us.

On behalf of all of us here at Boss Hoss we wish to thank all of our customers for your continued patronage.

All we ask now is stay tuned and be patient with us as we are getting ready for 2018. We look forward to bringing you the kick-ass Boss Hoss Cycles you've always wanted! Monte would want us to do no less!

Devon B. Katzev
President
